

## **Title IIA**

**MDE has advised MANS in cases where nonpublic schools are unable to use their budgeted Title IIA funds because a conference is cancelled, it is ordering the LEA to hold the funds in carry-over for that school rather than return them to the larger LEA pot of money.**

**MDE also advises anyone who does not attend a conference that is not cancelled - cancellation fees cannot be paid from Title IIA because it was the choice of the participant not to attend.**

**Stay tuned for future updates. MANS will share them as they become known.**
